

IN THE CLAIMS

Please cancel claims 1 and 7 without prejudice or disclaimer of their underlying subject matter.

Please amend the claims as follows.

1. (canceled)

2. (currently amended) A display apparatus according to claim ~~1~~6, wherein said conductive sticky layer has a sheet resistivity in a range of $10 \Omega/\text{cm}^2$ to $1 \text{ K}\Omega/\text{cm}^2$.

3. (currently amended) A display apparatus according to claim ~~1~~6, wherein said conductive sticky layer contains carbon.

4. (currently amended) A display apparatus according to claim ~~1~~6, wherein said dielectric film layer has a thickness in a range of 10 nm to 250 nm.

5. (currently amended) A display apparatus according to claim ~~1~~6, wherein said conductive film has a sheet resistance in a range of $100 \Omega/\square$ to $1 \text{ K}\Omega/\square$.

6. (current amended) ~~A display apparatus according to claim~~
~~1~~ A display apparatus having a display screen, comprising:
a stacked film attached to a front surface of the display
screen, said stacked film comprising in sequence a base layer, a
hard coat layer, a conductive film layer, and a dielectric film
layer; and
a conductive tape including a conductive base and a conductive
sticky layer; wherein:
said conductive sticky layer has a specific electrical
resistance,
one end of said conductive tape is stuck on said dielectric
film layer via said conductive sticky layer and the other end of
said conductive tape is electrically grounded, and wherein
the other end of said conductive tape is connected to a ground
portion via said conductive sticky layer.

7. (canceled)
